

US & Mexico Cross-Border Shipping Service

Learn how to identify the fastest and most cost-effective shipping solution to and from Mexico – with an expedited option that eliminates transloading.

Cross-Border Shipping Options

Expediting

LiVe's expedited trucking service eliminates transloading and is your fastest option for shipments to the US from Mexico.

LiVe will can pick up your freight on a special trailer with dual plates and clear it with US Customs at one of several airports in Mexico.

Once your shipment crosses the border, US Customs will verify that no one has accessed your freight and remove the locks and you don't have to wait in line for an inspection.

The best part: your freight stays on one truck from origin to destination even for LTL shipments.

Single-Serve Cross-Border

LiVe partners with dual-plate operators who have the ability to operate in both the USA and Mexico and can pass through any border crossing. This reduces a leg of transportation from the shipment, decreases risk, improves transit time, and reduces damage.

Our customers also have the benefit of being supported by both Mexico-based and US-based teams to coordinate local transport, resulting in a seamless experience.

Enhanced Mexico Access

LiVe can handle freight to and from Mexico's northern industrial corridor that runs along the US-Mexico border and is popular with automotive suppliers and high-tech manufacturers. We can also move shipments to and from the growing manufacturing area near Mexico City. We can pass through any border crossing and make the pick-up and delivery in the US or Mexico.

Traditional Cross-Border

Your shipments will be transloaded at the US border from a Mexican carrier to a US carrier, clear customs, and are on their way.

This is the most common type of cross-border shipping. The downside: transloading creates a shipping delay.

Ocean Freight

Simply put, LiVe can truck your shipments to the nearest port, load them onto a shipping container, and ship them to US ports.

Air Freight

LiVe has a full-service air freight division that is ready to ship your time-sensitive shipments between Mexico and the US.

Get Started Today

Wherever your pick-up or delivery locations are in Mexico, speak with LiVe Logistics agent who will help you identify the right shipping, insurance and security solution for your shipments and get you a quote. We also ship to and from Canada. **Note:** Insurance levels can be different so it's important to pay attention to insurance requirements and availability in Mexico.
